

**ATLANTIC  
Environmental Consulting Services, LLC**

**Michael D. Weaver, P.G., LSRP  
Vice President, Geologic Services**

Mr. Weaver is a vice president for Atlantic Environmental Consulting Services, L.L.C. He is a professional geologist with 25 years of site investigation and remediation experience. Mr. Weaver has extensive experience directing and performing soil and groundwater remediation activities for industrial and commercial sites regulated by the NJDEP. He has provided oversight of remedial investigations at New Jersey Superfund sites; performed aquifer analyses including groundwater flow and contaminant transport modeling; performed litigation support and expert witness testimony; and conducted Phase I and Phase II environmental site assessments associated with property transactions.

Mr. Weaver has been licensed as a NJDEP Licensed Site Remediation Professional (LSRP) since the LSRP program began in 2009. As a LSRP, Mr. Weaver is responsible for directing and overseeing site remediation projects in New Jersey. Mr. Weaver has extensive experience with NJDEP regulations, guidance documents, reports and associated forms. He has performed Preliminary Assessments, Site/Remedial Investigations, UST Closures, Receptor Evaluations, Vapor Intrusion investigations, Ecological Evaluations, soil and groundwater remedial action permits, Biennial Certifications and he has issued Response Action Outcomes (RAO) for sites regulated under ISRA, USTs and the Spill Act.
